How to fold an origami rhino

1

Start with a square piece of paper. Any size will do, just not too small, this will make the folds very tricky. Leftover wrapping paper works really well.

2

Fold in half and unfold.

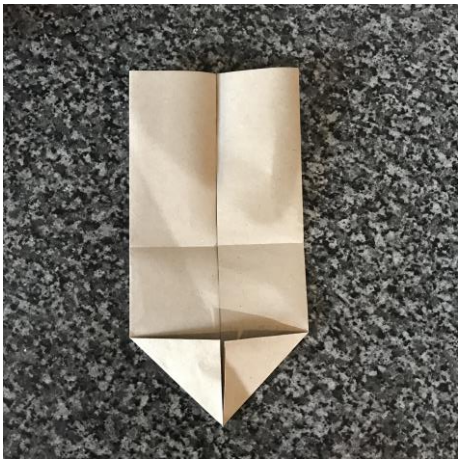
3

Fold edges into the centre.

4

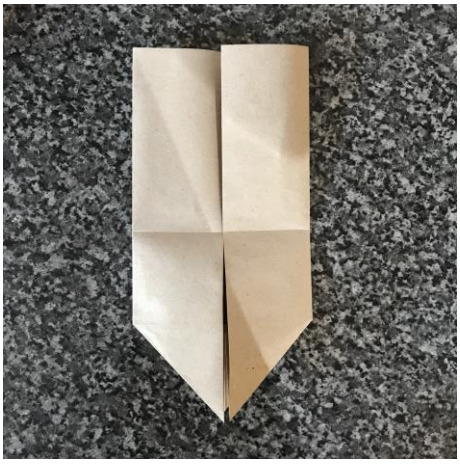
Fold horizontally and unfold

5



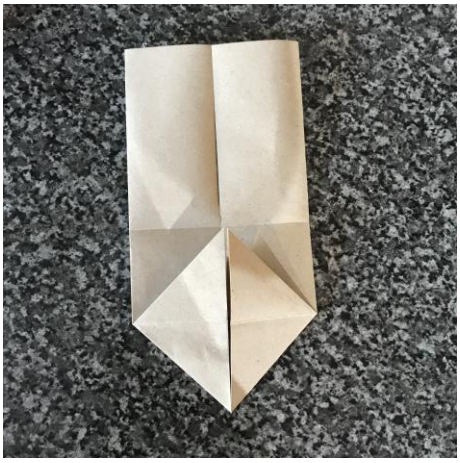
Fold bottom edges into the centre

6



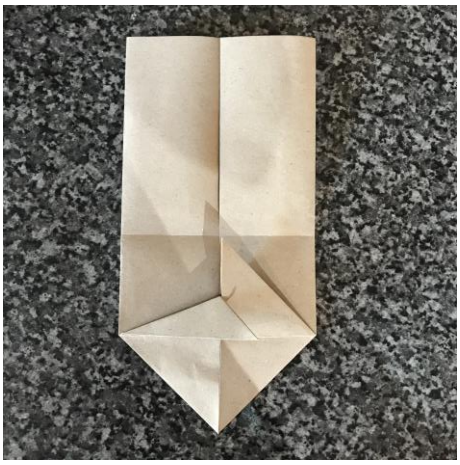
Squash fold those edges

7



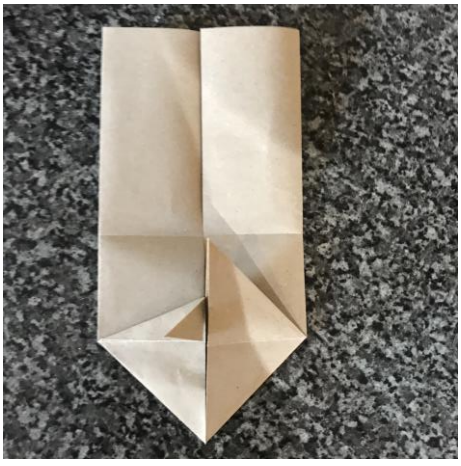
Open up fold

8



Fold edge

9



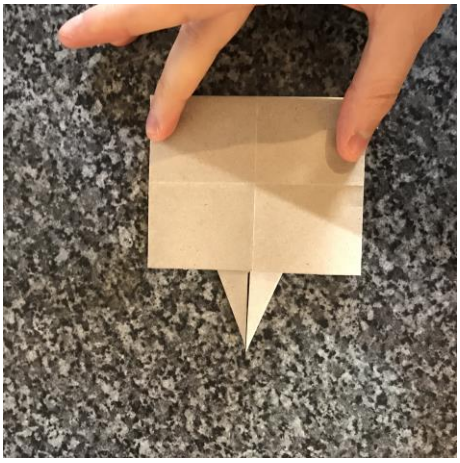
Fold tip outwards

10

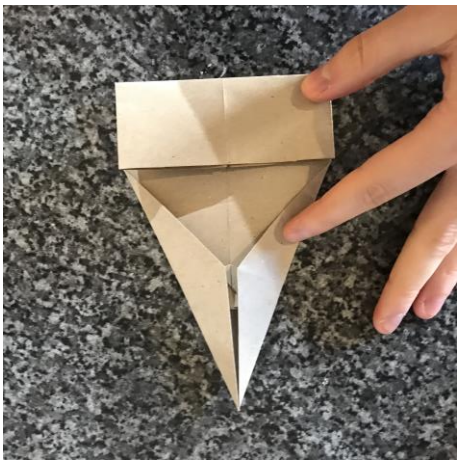
Repeat 8 & 9 on other side

Fold tips back in

Fold edges into the centre



Fold horizontal and unfold

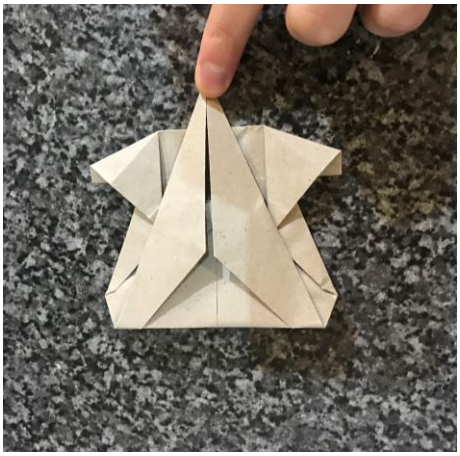


Fold to half and unfold

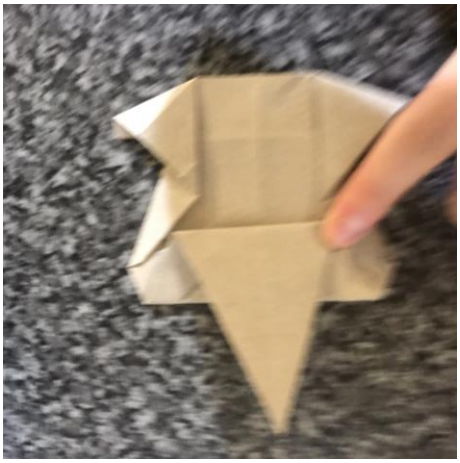
Fold to h half again

Flip over and fold edges to centre, repeat on other side

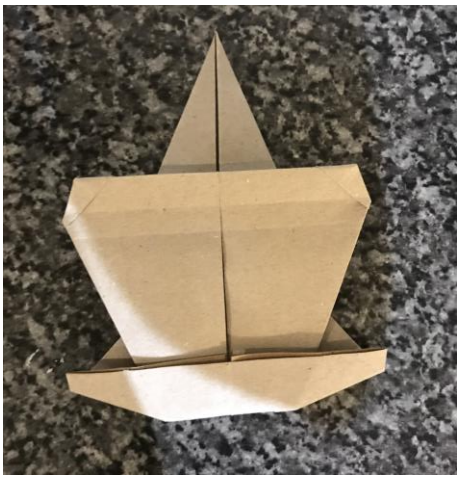
Squash fold each side



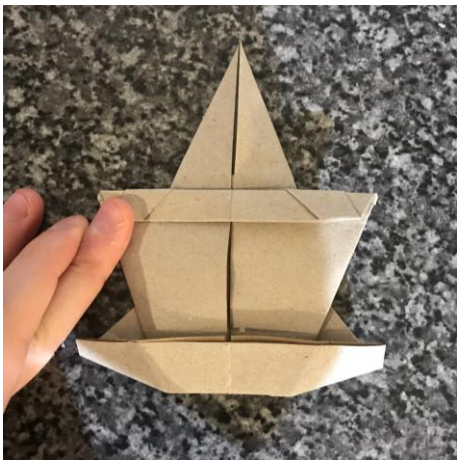
Turn over and fold pointy end horizontally

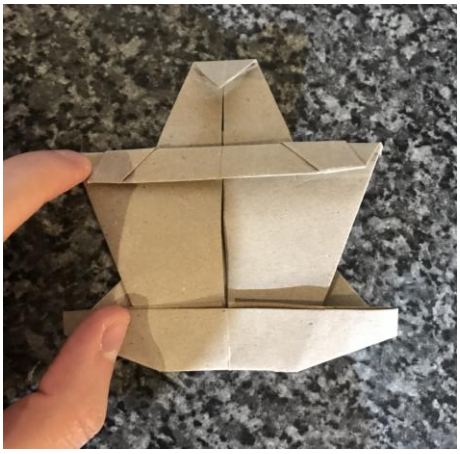


Fold pointy end back again



Flip over and fold precreased edge horizontally





Fold over tip to make horn

Fold in half along spine allowing ear flaps to hang out, swivel horn into position

Round the rump with a revers fold to finish
